WHY UPP

- | | | | |
|---|---|---|---|
| ✓ Secure defined benefit pension | Predictable, secure retirement income for life based on an average of best 48 months of earnings and years of service. | ✓ Funded conditional indexation (cost of living adjustments) | UPP provides funded, conditional indexation at 75% of Consumer Price Index (CPI). This means that any indexation adjustments will be determined by UPP's Joint Sponsors based on the funded status of the plan. |
| ✓ 100% matched contributions | Every dollar contributed by a member during active employment is fully matched by the employer. | ✓ Tailored for the university sector | Continue service during paid leaves, options to contribute during unpaid leave, early unreduced retirement and flexible survivor benefits. |
| ✓ Best-in-class value | Top value for contributions among peer defined benefit pension plans in Ontario. | ✓ Career flexibility | Eligible plan members can easily move between UPP participating employers without losing years of service, and combine part-time service at multiple UPP participating employers for eligible employment classes. |
| ✓ Representative voice in the plan | Equal employee-employer say in plan funding, design, entry of new participants, and appointment of members to Board of Trustees (plan administrator). | ✓ Expert investment management | Contributions invested by experienced professionals with deep expertise in pension sustainability and responsible investing. |
